Jackson Energy Authority Recognizes National Safe Digging Month

NASHVILLE, TN/JACKSON, TN. – The common ground alliance and its stakeholders have designated April 2010 as National Safe Digging month. This month is dedicated to increasing awareness of safe digging practices across the country and to celebrate the 3-year anniversary of 811, the national call-before-you-dig number.

Throughout the month of April, Jackson Energy Authority will be encouraging homeowners, contractors, developers and customers to call 811 before they dig to help prevent injuries, property damage and inconvenient outages. Over 200,000 underground utility lines are struck each year in the United States. Calling 811 before digging ensures the location of all lines, pipes and cables to help prevent such damage.
