

# Jackson, Tennessee... Fiber at Every Door

**W**elcome to Jackson, Tennessee, one of the first fiber-to-the-home communities in the United States.

Jackson residents, businesses and industries enjoy a unique broadband communications infrastructure. Built by Jackson Energy Authority, a municipal utility company, Jackson's EPlus Broadband network provides three services: high-speed Internet, telephone and cable television.

With its unlimited bandwidth capacity, our award-winning fiber optic network is designed to serve the rapidly expanding telecommunications needs of our customers well into the future. With fiber delivered to their doorsteps, our customers are connected to the world – at the speed of light.

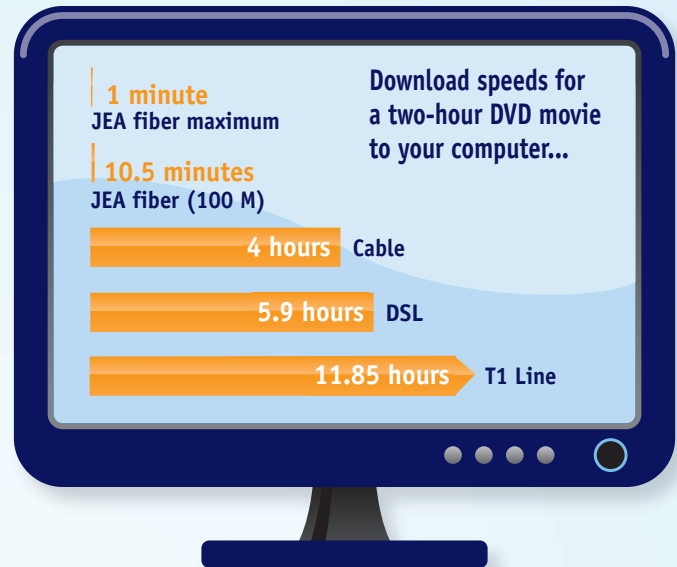

## Broadband

# Advantages of having JEA fiber...

- ▶ No communications infrastructure is more advanced than fiber. JEA's EPlus Broadband provides whatever capacity you need.
- ▶ While other communications providers are increasing capacity and speed by updating old networks or adding fiber to slower copper infrastructure, our all-fiber optic infrastructure was designed and built as a next generation, state-of-the-art system, with fiber to your door.
- ▶ Jackson's fiber system has a local point of presence with three long-haul fiber companies, serving nine long-distance carriers. We connect our customers to the rest of the world with ease.
- ▶ Our system offers gigabit-speed data connections, with symmetrical upload and download.
- ▶ Your employees can enjoy the same high Internet speeds and capacity in their Jackson homes. This not only adds to the quality of life in our community, it offers endless possibilities for telecommuting between your industry site and employees' homes.

*Fiber is a next-generation infrastructure, offering by far the fastest speeds and greatest capacity over other technology. JEA's fiber has the same upload and download speeds, unlike other technology, whose upload speeds are even slower than the download speeds, shown above.*

- ▶ EPlus Broadband has won two prestigious national awards for innovation and excellence: The Cornerstone Award for the best Fiber-to-the-Home Public Utility Network and the Apex Award from the Utilities Telecom Council.

**JEA EPlus Broadband connects Jackson to the world through Tier 1 carriers...**

- ▶ Time Warner,
- ▶ Verizon,
- ▶ AT&T,
- ▶ Quest,
- ▶ Level 3,
- ▶ and others.

# Advantages of JEA...

- ▶ JEA offers the convenience of one-stop utility service; we provide electricity, gas, water, wastewater and telecommunications services to the Jackson area. Besides the advantages of receiving all utilities from one company, you will have one point-of-contact as we help you expand or start up your company in Jackson, and as we continue to provide services.
- ▶ With each utility, JEA will customize solutions for your exact needs.
- ▶ We provide 24-hour-a-day support, backed with exceptional customer service.
- ▶ JEA is a customer-owned, cost-competitive, municipal utility.
