

# JACKSON ENERGY AUTHORITY

## TIME-OF-DAY GENERAL POWER RATE--SCHEDULE TGSA

(March 1, 2011)

### Availability

This rate shall be available for the firm power requirements (where the higher of a customer's on-peak or off-peak contract demand is 5,000 kW or less) for electric service to commercial, industrial, and governmental customers', and to institutional customers including, without limitations, churches, clubs, fraternities, orphanages, nursing homes, rooming or boarding houses, and like customers, provided that the other conditions of this section are met.

For a customer requesting that its on-peak contract demand be different from its off-peak contract demand, this schedule shall be available only for (1) a new contract, (2) a replacement or renewal contract following expiration of the existing contract, or (3) a replacement or renewal contract or an amended existing contract in which the customer is increasing its demand requirements above the existing contract demand level, but under this item (3) neither the new on-peak nor the new off-peak contract demand shall be lower than the customer's existing contract demand.

### Character of Service

Alternating current, single or three-phase, 60 hertz power shall be delivered at a service voltage available in the vicinity or agreed to by Jackson Energy Authority.

### Charges

1. If the higher of (1) the higher of the customer's currently effective on-peak or off-peak contract demand or (2) the customer's highest on-peak or off-peak billing demand during the latest 12-month period is not more than 50 kW:

Customer Charge: \$24.75 per delivery point per month

	<u>Base</u>	<u>Adjustment</u>	<u>Fuel Cost Adjustment</u>	<u>Total</u>
Energy Charge:	15.084¢	0.614¢	0.635¢	16.333¢ per kWh per month for all on-peak kWh
	4.585¢	0.162¢	0.635¢	5.382¢ per kWh per month for all off-peak kWh

2. If the higher of (1) the higher of the customer's currently effective on-peak or off-peak contract demand or (2) the customer's highest on-peak or off-peak billing demand during the latest 12-month period is greater than 50 kW but no more than 1,000 kW:

Customer Charge: \$74.00 per delivery point per month

Distribution Capacity Charge: 24.0¢ per kW per month of the higher of the customer's on-peak billing demand or off-peak billing demand

Demand Charge: \$12.84 per kW of the customer's on-peak billing demand, plus \$2.85 per month for each kW, if any, of the amount by which the customer's off-peak billing demand exceeds its on-peak billing demand

	<u>Base</u>	<u>Environmental Adjustment</u>	<u>Fuel Cost Adjustment</u>	<u>Total</u>
Energy Charge:	6.817¢	0.257¢	0.627¢	7.701¢ per kWh per month for all on-peak kWh
	4.480¢	0.157¢	0.627¢	5.264¢ per kWh per month for all off-peak kWh

3. If the higher of (1) the higher of the customer's currently effective on-peak or off-peak contract demand or (2) the customer's highest on-peak or off-peak billing demand during the latest 12-month period is greater than 1,000 kW:

Customer Charge: \$425.00 per delivery point per month

Distribution Capacity Charge: 35.0¢ per kW per month of the higher of the customer's on-peak billing demand or off-peak billing demand

Demand Charge: \$13.79 per kW per month of customer's on-peak billing demand, plus  
 \$1.90 per month for each kW, if any, of the amount by which the customer's off-peak billing demand exceeds its on-peak billing demand, plus an additional  
 \$13.79 per kW per month for each kW, if any, of the amount by which (1) the customer's on-peak billing demand exceeds the higher of 2,500 kW or its on-peak contract demand or (2) the customer's off-peak billing demand exceeds the higher of 2,500 kW or its off-peak contract demand, whichever is higher

	<u>Base</u>	<u>Environmental Adjustment</u>	<u>Fuel Cost Adjustment</u>	<u>Total</u>
Energy Charge:	6.135¢	0.257¢	0.627¢	7.019¢ per kWh per month for all on-peak kWh
	3.826¢	0.157¢	0.627¢	4.610¢ per kWh per month for all off-peak kWh

Adjustment

The base demand and energy charges shall be increased or decreased in accordance with the current Adjustment Addendum published by TVA. (In addition, such charges shall be increased or decreased to correspond to increases or decreases determined by TVA under Adjustment 2 or Adjustment 4 of the wholesale power rate schedule applicable under contractual arrangements between TVA and Jackson Energy Authority.)

Determination of On-peak and Off-peak Hours

Except for Saturdays and Sundays and the weekdays that are observed as Federal holidays for New Year's Day, Memorial Day, Independence Day, Labor Day, Thanksgiving Day, and Christmas Day, on-peak hours for each day shall be 10 a.m. to 10 p.m. during calendar months of May through September and from 6 a.m. to 12 noon and from 4 p.m. to 10 p.m. during all other calendar months. All other hours of each day and all hours of such excepted days shall be off-peak hours. Such times shall be Central Standard Time or Central Daylight Time, whichever is then in effect. The on-peak and off-peak hours under this rate schedule are subject to change by TVA. In the event TVA determines that such changed on-peak and off-peak hours are appropriate, it shall so notify Jackson Energy Authority at least 12 months prior

to the effective date of such changed hours, and Jackson Energy Authority shall promptly notify customer.

#### Determination of On-peak and Off-peak Demands and Energy Amounts

The on-peak and off-peak kWh for any month shall be the energy amounts taken during the respective hours of the month designated under this rate schedule as on-peak and off-peak hours.

Jackson Energy Authority shall meter the on-peak and off-peak demands in kW of all customers taking service under this rate schedule. The on-peak demand and the off-peak demand for any month shall be determined separately for the respective hours of the month designated under this rate schedule as on-peak and off-peak hours and in each case shall be the higher of the highest average during any 30-consecutive-minute period beginning or ending on a clock hour of the month of (a) the load metered in kW or (b) 85 percent of the load in kVA plus an additional 10 percent for that part of the load over 5,000 kVA, and, except as provided below in this section, such amounts shall be used as the on-peak and off-peak billing demands. The on-peak billing demand shall in no case be less than 30 percent of the customer's on-peak demand amount. The off-peak billing demand shall in no case be less than 30 percent of the customer's off-peak demand amount.

For purposes of this section, the on-peak demand amount referred to above shall be the higher of the currently effective on-peak contract demand or the highest on-peak billing demand established in the preceding 12 months, and the off-peak demand amount referred to above shall be the higher of the currently effective off-peak contract demand or the highest off-peak billing demand established in the preceding 12 months.

#### Minimum Bill

The monthly bill under this rate schedule shall not be less than the sum of (a) the customer charge, (b) the portion of the base demand charge, as adjusted, applicable to on-peak billing demand applied to the customer's on-peak billing demand, (c) the portion of the base demand charge, as adjusted, applicable to the excess of off-peak over on-peak billing demand applied to the amount, if any, by which the customer's off-peak billing demand exceeds its on-peak billing demand, (d) the base on-peak energy charge, as adjusted, applied to the customer's on-peak energy takings, (e) the base off-peak charge, as adjusted, applied to the customer's off-peak energy takings, and (f) the distribution capacity charge applied to the higher of the customer's on-peak or off-peak billing demand; provided, however, under 2 of the Base Charges, the monthly bill shall in no event be less than the sum of (a) the customer charge, (b) 20 percent of the base on-peak demand charge, as adjusted, multiplied by the customer's on-peak billing demand, (c) 20 percent of the portion of the base demand charge, as adjusted, applicable to the excess of off-peak over on-peak billing demand applied to the amount, if any, by which the customer's off-peak billing demand exceeds its on-peak billing demand, and (d) 20 percent of the distribution capacity charge, as adjusted, applied to the higher of the customer's on-peak or off-peak billing demand.

Jackson Energy Authority may require minimum bills higher than those stated above.

#### Seasonal Service

Customers who contract for service on a seasonal basis shall be limited to 2,500 kW and shall pay the above charges, as adjusted, plus an additional seasonal use charge equal to:

- (a) If the customer's billing demand and its contract demand, if any are each 50 kW or less:

1.00¢ per kWh for the first 15,000 kWh of the customer's energy takings for the month.

- (b) If the customer's billing demand or its contract demand exceeds 50 kW:

1.00¢ per kWh per month of the lesser of (1) the amount computed by multiplying 300 hours by the customer's billing demand or (2) the customer's energy takings for the month.

For such customers, the minimum bill provided for above shall not apply. Jackson Energy Authority may require additional charges to provide recovery of costs for customer-specific distribution facilities.

#### Contract Requirement

Jackson Energy Authority shall require contracts for all service provided under this rate schedule and such contracts shall be for an initial term of at least 1 year. The customer shall contract for its maximum requirements, which shall not exceed the amount of power capable of being used by customer, and Jackson Energy Authority shall not be obligated to supply power in greater amount at any time than the customer's currently effective contract demand. If the customer uses any power other than that supplied by Jackson Energy Authority under this rate schedule, the contract may include other special provisions. The rate schedule in any power contract shall be subject to adjustment, modification, change, or replacement from time to time as provided under the power contract between Jackson Energy Authority and TVA.

After having received service for at least 1 year under this rate schedule, the customer, subject to appropriate amendments in its power contract with Jackson Energy Authority, may receive service under the General Power Rate--Schedule GSA. In such case the term of the power contract shall remain the same and the contract demand for service under the General Power Rate--Schedule GSA shall not be less than the on-peak contract demand in effect when service was taken under this rate schedule.

#### Payment

Bills under this rate schedule will be rendered monthly. Any amount of bill unpaid after due date specified on bill may be subject to additional charges under Jackson Energy Authority's standard policy.

#### Single-Point Delivery

The charges under this rate schedule are based upon the supply of service through a single delivery and metering point, and at a single voltage. If service is supplied to the same customer through more than one point of delivery or at different voltages, the supply of service at each delivery and metering point and at each different voltage shall be separately metered and billed.

---

Service is subject to Rules and Regulations of Distributor.
