47 C.F.R. § 76.75(b)(2) Outreach Initiatives:

Establishment of an internship program designed to assist members of the community in acquiring skills needed for multichannel video programming distributor employment;; 47 C.F.R. § 76.75(b)(2)(v):

JEA has established a minority intern program that helps to identify local high school seniors that are interested in a technical career paths. Each summer, JEA hires students to work in various technical roles to help provide interns with a better understanding of positions available in the Telecom/Utility sector. In addition, JEA also has partnered with Jackson Madison County Schools to host interns as part of the Local Options & Opportunities Program (L.O.O.P.). This is a work-based learning program where seniors in high school work three days per week at JEA and then attend school the other two days. With this program, we provide hands-on experience to various field positions over the course of their senior year. Both intern programs are reviewed annually, along with JEA's ongoing recruitment efforts, to ensure it is doing its part to hire, promote and maintain a diverse workforce.
