

JACKSON ENERGY AUTHORITY

TIME-OF-USE GENERAL POWER RATE--SCHEDULE TGSA

April 1, 2025

Availability

This rate shall be available for the firm power requirements (where the higher of a customer's onpeak or offpeak contract demand is greater than 1,000 kW and less than 5,000 kW) for electric service to commercial, industrial, and governmental customers, and to institutional customers including, without limitation, churches, clubs, fraternities, orphanages, nursing homes, rooming or boarding houses, and like customers.

For a customer requesting that its onpeak contract demand be different from its offpeak contract demand, this schedule shall be available only for (1) a new contract, (2) a replacement or renewal contract following expiration of the existing contract, or (3) a replacement or renewal contract or an amended existing contract in which the customer is increasing its demand requirements above the existing contract demand level, but under this item (3) neither the new onpeak nor the new offpeak contract demand shall be lower than the customer's existing contract demand.

Character of Service

Alternating current, single- or three-phase, 60 hertz. Power shall be delivered at a service voltage available in the vicinity or agreed to by Distributor.

Base Charges

If the higher of (a) the customer's currently effective onpeak or offpeak contract demand or (b) its highest onpeak or offpeak billing demand during the latest 12-month period is greater than 1,000 kW:

Customer Charge: \$477.88 per delivery point per month

Demand Charge:

Summer Period	\$9.48	per kW per month of the customer's onpeak billing demand, plus
	\$6.14	per kW per month of the customer's maximum billing demand, plus an additional
	\$9.48	per kW per month for each kW, if any, of the amount by which (1) the customer's onpeak billing demand exceeds the higher of 2,500 kW or its onpeak contract demand or (2) the customer's offpeak billing demand exceeds the higher of 2,500 kW or its offpeak contract demand, whichever is higher
Winter Period	\$8.42	per kW per month of the customer's onpeak billing demand, plus
	\$6.14	per kW per month of the customer's maximum billing demand, plus an additional
	\$8.42	per kW per month for each kW, if any, of the amount by which

(1) the customer's onpeak billing demand exceeds the higher of 2,500 kW or its onpeak contract demand or (2) the customer's offpeak billing demand exceeds the higher of 2,500 kW or its offpeak contract demand, whichever is higher

Transition Period	\$8.42	per kW per month of the customer's onpeak billing demand, plus
	\$6.14	per kW per month of the customer's maximum billing demand, plus an additional
	\$8.42	per kW per month for each kW, if any, of the amount by which (1) the customer's onpeak billing demand exceeds the higher of 2,500 kW or its onpeak contract demand or (2) the customer's offpeak billing demand exceeds the higher of 2,500 kW or its offpeak contract demand, whichever is higher

Energy Charge:

	<u>Std Rate</u>		<u>FCA</u>		<u>Total Rate</u>	
Summer Period						
Onpeak	\$0.07344	+	\$0.02994	=	\$0.10338	per kWh
Offpeak	\$0.04741	+	\$0.02994	=	\$0.07735	per kWh
Winter Period						
Onpeak	\$0.06138	+	\$0.02994	=	\$0.09132	per kWh
Offpeak	\$0.04956	+	\$0.02994	=	\$0.07950	per kWh
Transition Period						
Onpeak	\$0.05041	+	\$0.02994	=	\$0.08035	per kWh
Offpeak	\$0.05041	+	\$0.02994	=	\$0.08035	per kWh

Adjustment

The base demand and energy charges shall be increased or decreased in accordance with the current Adjustment Addendum published by TVA. In addition, such charges shall be increased or decreased to correspond to increases or decreases determined by TVA under Adjustment 4 of the wholesale power rate schedule applicable under contractual arrangements between TVA and Jackson Energy Authority.

Determination of Seasonal Periods

Summer Period shall mean the June, July, August, and September billing months. Winter Period shall mean the December, January, February, and March billing months. Transition Period shall mean the April, May, October, and November billing months.

Determination of Onpeak and Offpeak Hours

Except for Saturdays and Sundays and the weekdays that are observed as Federal holidays for New Year's Day, Memorial Day, Independence Day, Labor Day, Thanksgiving Day, and Christmas Day, onpeak hours for each day shall for purposes of this rate schedule be from 1 p.m. to 7 p.m. during the

months of April, May, June, July, August, September and October and from 4 a.m. to 10 a.m. during the months of January, February, March, November, and December. All other hours of each day shall be offpeak hours. Such times shall be Central Standard Time or Central Daylight Time, whichever is then in effect. Said onpeak and offpeak hours are subject to change. In the event of such change, Distributor shall promptly notify customer.

Determination of Onpeak and Offpeak Energy Amounts

The onpeak and offpeak kWh for any month shall be the energy amounts taken during the respective hours of the month designated under this rate schedule as onpeak and offpeak hours.

Determination of Onpeak and Offpeak Demands and Maximum Metered Demand

Distributor shall meter the onpeak and offpeak demands in kW of all customers taking service under this rate schedule. The onpeak demand and the offpeak demand for any month shall be determined separately for the respective hours of the month designated under this rate schedule as onpeak and offpeak hours and in each case shall be the higher of the highest average during any 30-consecutive-minute period beginning or ending on a clock hour of the month of (a) the load metered in kW or (b) 85 percent of the load in kVA plus an additional 10 percent for that part of the load over 5,000 kVA, and, except as provided below in this section, such amounts shall be used as the onpeak and offpeak billing demands. The onpeak billing demand shall in no case be less than 30 percent of the customer's onpeak demand amount. The offpeak billing demand shall in no case be less than 30 percent of the customer's offpeak demand amount. The maximum billing demand for any month shall be the higher of the onpeak billing demand or offpeak billing demand.

For purposes of this section, the onpeak demand amount referred to above shall be the higher of the currently effective onpeak contract demand or the highest onpeak billing demand established in the preceding 12 months, and the offpeak demand amount referred to above shall be the higher of the currently effective offpeak contract demand or the highest offpeak billing demand established in the preceding 12 months.

Minimum Bill

The monthly bill under this rate schedule, excluding any facilities rental charges, shall not be less than the sum of (1) the base customer charge, (2) the portion of the base demand charge, as adjusted, applicable to onpeak billing demand applied to the customer's onpeak billing demand, (3) the portion of the base demand charge, as adjusted, applicable to maximum billing demand applied to the customer's maximum billing demand, (4) the base onpeak energy charge, as adjusted, applied to the customer's onpeak energy takings, and (5) the base offpeak energy charge, as adjusted, applied to the customer's offpeak energy takings.

Distributor may require minimum bills higher than those stated above.

Seasonal Service

Customers who contract for service on a seasonal basis shall be limited to 2,500 kW and shall pay the above charges, as adjusted, plus an additional seasonal use charge equal to 1.0¢ per kWh per month of the customer's energy takings.

For such customers, the exception language under the Determination of Onpeak and Offpeak Demands and Maximum Metered Demand section and the minimum bill provided for above shall not apply. Distributor may require additional charges to provide recovery of costs for customer-specific distribution

facilities.

Contract Requirement

Distributor shall require contracts for service provided under this rate schedule and such contracts shall be for an initial term of at least 1 year. The customer shall contract for its maximum requirements, which shall not exceed the amount of power capable of being used by customer, and Distributor shall not be obligated to supply power in greater amount at any time than the customer's currently effective contract demand. If the customer uses any power other than that supplied by Distributor under this rate schedule, the contract may include other special provisions. The rate schedule in any power contract shall be subject to adjustment, modification, change, or replacement from time to time as provided under the power contract between Distributor and TVA.

After having received service for at least 1 year under this rate schedule, the customer, subject to appropriate amendments in its power contract with Distributor, may receive service under the General Power Rate--Schedule GSA. In such case the term of the power contract shall remain the same and the contract demand for service under the General Power Rate--Schedule GSA shall not be less than the onpeak contract demand in effect when service was taken under this rate schedule.

Payment

Bills under this rate schedule will be rendered monthly. Any amount of bill unpaid after due date specified on bill may be subject to additional charges under Jackson Energy Authority's standard policy.

Single-Point Delivery

The charges under this rate schedule are based upon the supply of service through a single delivery and metering point, and at a single voltage. If service is supplied to the same customer through more than one point of delivery or at different voltages, the supply of service at each delivery and metering point and at each different voltage shall be separately metered and billed.

Service is subject to Rules and Regulations of Jackson Energy Authority.
